

ROOMS TO LOVE

Playful and Sophisticated

Maloney Interiors transformed this living room into a dream getaway.

PHOTOGRAPH BY CATE BROWN

FROM THE DESIGNER: “Our clients were looking for the perfect home to unite their large family for the summer season in Westerly. We agreed that the overall design and level of comfort should appeal to the clients themselves, their adult children and their grandchildren. To achieve this goal, we introduced turnkey interior furnishings designed for comfort and friendliness. Our use of performance fabrics allowed for a youthful and relaxing look, while being stress-free and easy to clean. We also felt the use of animal prints and other organic forms in the space would add intrigue and spirit into this otherwise monochromatic room. This space encompasses what we believe every family vacation should be, and is a perfect balance between spontaneous outings and mellow moments.”
